CISV Committee Logos

These logos have been developed according to CISV's Brand Guidelines on logo usage and Sub-branding. They have been tested at the International Office for both PC and Mac, in Word documents, to print and in PDFs.

They have been specifically modified for use in Word, Admin documents, on Committee letterheads, and small documents like newsletters (see samples at right).

They are low resolution file sizes (black and white, grayscale – 80kb, blue and orange, RGB – 160kb) and a small size, 10cm width. They can be scaled down to smaller sizes but are not suitable for high quality print or at larger sizes.

There are black and white versions and blue and orange versions for each CISV Committee or Taskforce.
